

RESEARCH LEADERSHIP AWARD NOMINATION PACKAGE 2017

Crohn's and Colitis Canada is pleased to present its Research Leadership Award. This award is presented to an individual who has participated in the development and delivery of Crohn's and Colitis Canada research programs, through participation in the IBD Research Institute and the promotion of IBD research. This individual has made an exceptional leadership contribution to the mission and values of Crohn's and Colitis Canada and has significantly accelerated the search for the cure for inflammatory bowel disease.

The award will be presented during a conference, symposia or appropriate research event. The recipient of the award will be expected to participate in a public lecture or research event for Crohn's and Colitis Canada.

Nomination Package

Submissions must include:

- Completed nomination form
- Updated curriculum vitae for the candidate.

Nominations may be submitted by email to: research@crohnsandcolitis.ca

Research Leadership Award 2017 Nomination Form

Nominated by:

Name: _____ Email Address: _____

Nomination Seconded by:

Name: _____ Email Address: _____

We hereby nominate _____ for the Crohn's and Colitis Canada Research Leadership Award.

The nominee has participated in the development of Crohn's and Colitis Canada research programs, particularly through the following contributions:

We believe this individual has made an exceptional contribution to Crohn's and Colitis Canada's Promise (to cure Crohn's disease and ulcerative colitis and improve the lives of children and adults living with these chronic diseases) for the following reasons:

We believe that this additional information will also be of assistance to the Crohn's and Colitis Canada Board of Directors and its selection panel as it considers this nomination.

Additional supporting materials can be attached as a pdf document and emailed along with this complete form.
